

**Revenue
perfins
of
Brazil
by
Jack Brandt**

As most of you know, I am quite interested in revenue perfins. I have told people that I write about them because there are fewer collectors who can prove me wrong.

In my collection I have six different perfin types on Brazil revenues. The odd thing is that three of them are the same initials--D&C. Why would one company, assuming it is a company, have three machines, all different, when few companies in the country had any perfin machines. Different towns are a reasonable explanation, but that hasn't been confirmed.

Here's a list of what I have. Can anybody add to the list or provide any identifications.

1. B&C
2. D. & C. with small holes
3. D. & C.
4. D&C. Large & with no period after the D. A D&C is known on postage stamps, used by Dannemann & Cia. of Sao Felix and Bahia
5. FWB
6. Z.B/& Co. is also known on postage stamps, used by Zerrehmer Bulow & Cia. of Sao Paulo.

Any clues to identifications will be appreciated. Write me at 1006 727 6th Avenue Southwest, Calgary, Alberta T2P 0V1 Canada.
